

Voter Resource Guide

Ketchum

October 2020

As one of the first companies to sign the Time to Vote and Vote Safe pledges, we've joined hundreds of organizations in encouraging participation in the voting and civic engagement process, through whichever method is safest and most preferred by each citizen. If you can't vote, there are plenty of ways to amplify your voice and engage in your community as outlined in the following Election Resource Guide.

If you haven't already done so, check your registration status or begin the voter registration process at <https://www.vote.org/>. Learn more about your options and important dates for voting in your state, including absentee, mail-in ballots, ballot drop boxes or early in-person voting.

On Nov. 3, if you have voted early, consider volunteering at the polls safely by wearing a mask and following social distancing guidelines. You may also spend time encouraging others to participate in the voting process using social media or by speaking to friends and family. No matter how you spend Election Day, take the time to make a difference for yourself and others. Vote or participate in the way that works best for you, and make your voice heard.
